❖ **Professional Experience:**

Company: Computer Sciences Corporation, De Anza Foothill College

Dates: June 2000 to July 2003

Position: Web Programmer, Computer Scientist/Engineer

Highlights:

- Worked for the NASA Ames Research Center beginning as an intern for De Anza Foothill and then proceeded as a contractor for Computer Sciences Corporation after one year.
- Co-developed the GUI and back-end for ILab, an award-winning program to simulate virtual experiments on super-computer networks for such applications as flight simulation of aircraft designs and nanotechnology for medical use.

- Developed the ILab website, and the ILab web-application with partial functionality of stand-alone version.
- Co-developed PerlIT, a Perl/TK GUI creator
- Co-developed UniT, a universal translator program to convert application output to necessary input for another application (i.e., XML to HTML).
- Developed the UniT website.

❖ Independent Experience :

Company: Coralyn.com (previously known as WebDevDepot.com)

Date: July 2003 to present

Position: Consultant, Project Manager

Highlights:

- Provide services in consultation, training, graphic design, website development, search engine optimization, online marketing, updates, maintenance, and webmaster support.
- Specialize in HTML/CSS, Flash, SWiSH, PHP/MySQL, Joomla, WordPress, Drupal, osCommerce, VirtueMart, MySpace.
- Focus on personal service to clients both locally and nationally. Serve a variety of clients including corporations, small-medium sized businesses, non-profit organizations, artists, musicians, etc.
- Project manager and team lead of 4 designers and programmers, 2 part-time and 2 full-time.
- Achieved Top 10 ranking through search engine optimization for several websites.
- Client portfolio available at: <http://coralyn.com/portfolio/>
